

City of Mequon – Request for Proposals Nuisance Coyote Removal Services

Overview:

As a part of its recently adopted Coyote Nuisance Management and Response Plan Policy the City of Mequon is looking to obtain a service contract with a local animal control specialist. On an as needed basis, the City will need to send out an animal control specialist in an attempt to locate, trap and/or lethally dispatch a nuisance coyote(s). As a part of this process the City is currently pursuing a WI Department of Natural Resources permit that will allow for the year-round use of cable restraint style traps and/or the use of meat-based baiting methods. This RFP for service is not intended as a culling program, but a targeted effort to address specific nuisance complaints. A copy of the Coyote Nuisance Management and Response Plan Policy is available online at www.ci.mequon.wi.us.

The City is requesting the following information from interested parties:

- Proof of appropriate licensure
- Proof of being Bonded/Insured as an animal removal service provider

Please also provide a brief written description for each of the following items;

- General Hunting/Trapping Experience
- Coyote specific Hunting/Trapping Experience
- Approach to identifying Nuisance Animal(s)
- Summary of preferred Removal/Dispatch Methods
- Approach to ensuring public safety while carrying out removal activities
- Methodology for communicating with Neighbors & Property Owners
- Availability for calls for service
- Do you have any experience working with a Municipality?
- Cost estimate for services
- References

Submittal Deadline: Noon on Friday September 4, 2015

Please submit your information to: *(paper or electronic copies welcome)*
