PUBLIC WORK/ENGINEERING

July 19, 2019

Mr. Jerome Flogel, P.E.
Sr. Project Manager, PPI/I Program
Milwaukee Metropolitan Sewerage District (MMSD)
260 W. Seeboth Street
Milwaukee, WI 53204

Subject: Funding Agreement ME03 - PPI/I Reduction Program
City Wide Study to Prioritize Implementation Projects

Mr. Flogel:

In response to your transmittal on July 1, 2019, enclosed are two City-endorsed copies of the subject Funding Agreement ME03. This letter is also intended to address your May 1, 2019 correspondence that requested the City of Mequon provide to you a tentative plan for using uncommitted balance of funds, in the amount of \$2,133,759. For this project, ME03, the City is preparing a study report to prioritize rehabilitation of sanitary sewer laterals and also draft corresponding implementation workplans for the remaining fund balance. The estimated number of laterals potentially rehabilitated will be provided in this report.

This work continues City efforts to reduce inflow and infiltration from private property in conjunction with mainline work to improve system reliability. Examples of work include:

- 2017 Cured-In-Place lateral lining in NW Shoreland, Corey Lane and Lake Shore Dr. (ME02);
- 2014 PPI/I Reduction Program Study in NW Shoreland and Ville du Parc (ME01);
- 2011 City Wide Sanitary Sewer System Evaluation;
- 2006 Sanipore flood grouting in the River Road Lift Station C area south of Mequon Road; and
- Annual rehabilitation and improvement projects to sewer mains and manholes that reduce I/I.

We look forward to continuing this work as it is important to improve sanitary sewer system reliability, reduce the risk of basement back-ups and limit sanitary sewer overflows. Thank you for your efforts to move this forward.

Sincerely,

Kevin R. Driscoll, P.E.
Deputy Director of Utilities
