Preview of June 13 Common Council Meeting

Starting at 6:45 P.M. on Tuesday, June 13, the Mequon Common Council, meeting as the Committee of the Whole, will receive a presentation from the Police Chief about adoption of the City of Mequon Municipal Emergency Operations Plan. The Council will also receive a status update on the implementation of projects identified within the City's 2022-2025 Strategic Plan.

Starting at 7:30 P.M., the Common Council will hold its monthly meeting for June. The meeting will begin with three first readings of the following ordinances:

1. Amending Section 58-441 of the Municipal Code relating to residential parking requirements for recreational vehicles
2. Amending Chapter 50 of the Municipal Code relating to nuisances within the City, including noise
3. Amending various sections of Chapter 2 of the Municipal Code to expand the number of members on the Southern Ozaukee Fire & EMS Board of Directors from five to seven

After the first readings, the Common Council will consider a number of other items, including:

- Amending Chapter 2 of the Municipal Code to adjust the travel & training meal allowance to \$60 per day
- Adopting and implementing updates to the City's Municipal Emergency Operations Plan
- Authorizing staff to file the Compliance Maintenance Annual Report (CMAR) for Calendar Year 2022, in accordance with requirements under Wisconsin Administrative Code NR208
- Approving a contract award to complete inspections of 1,011 sanitary sewer manholes to the Sigma Group in the amount of \$48,496
- Approving the award of two contracts for the rehabilitation of 79 sanitary manholes with grout to Great Lakes TV & Seal in the amount of \$70,235 and for the rehabilitation of 37 sanitary manholes with epoxy to Visu-Sewer, Inc. in the amount of \$170,566
- Authorizing a sanitary service deferral agreement for 12204 North Fieldwood Road

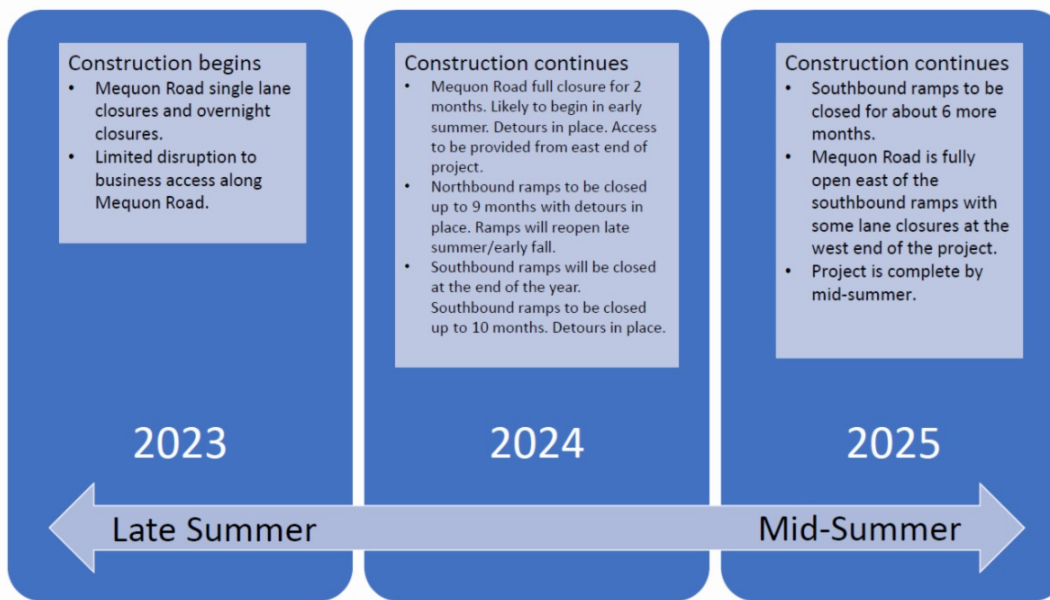

Agenda materials for the Common Council meeting, as well as for all other Committee and Board Meetings are available at:

WisDOT Project Updates

Construction season is well underway and the Wisconsin Department of Transportation (WisDOT) is already looking towards its next projects. Please see the summaries below for updates on WisDOT projects happening throughout the Mequon area. If residents are interested in finding out more about these projects, please go [here](#). Current projects under construction can be found [here](#).

Mequon Road Interchange

This project will begin in the fall of 2023 and be complete by mid-summer 2025. Crews will begin work widening the southbound shoulder and constructing the partial width freeway bridge. The general schedule is as follows:

Mequon Road (STH 167) West: Wasaukee Road to Buntrock Avenue

The proposed project is to mill 2 inches and pave 2 inches from Wasaukee Road (starting 1400 feet to the East) to Solar Avenue (approx. 2.6 miles), with some base patching, along with diamond grinding the concrete pavement from Solar Avenue to North Buntrock Avenue (approx. 0.8 miles). At the City of Mequon's request, the project will include the addition of sidewalk on the north side of Mequon Road from Wauwatosa Road to Swan Road, as well as mid-block crosswalk enhancements. Construction is currently scheduled for the 2025 season (May thru November 2025). Please note that this project will impact traffic, including a road closure with full detour for a portion of the project. Access for property owners will be maintained.

Wauwatosa Road (STH 181)

The proposed pavement replacement project includes reconstructing the roadway with a new pavement structure and subgrade improvements, replacing all curb and gutter, adding sidewalk and curb ramps, reconstructing/replacing the storm sewer inlets along the outside curbs, and replacing traffic signal equipment at West Donges Bay Road, and will extend from County Line Road north to a point just south of the Mequon Road (STH 167)/Wauwatosa Road (STH 181) intersection. Signing will be updated per policy and new pavement marking will be placed. The work will also include traffic control and erosion control. There will be two detours during construction as all the northbound lanes will be reconstructed during stage 2 and all southbound lanes during stage 3. The project currently is scheduled for construction in 2026/2027.

Mequon Road (STH 167)/Wauwatosa Road (STH 181)

WisDOT has also created a new, separate project for the intersection work at Mequon Road/Wauwatosa Road. The new project is a pavement replacement project. This is not a full reconstruct, and no geometric changes are anticipated. The project will take place in 2027 and the scope includes removal and replacement of existing pavement, base, and curb and gutter and subgrade improvements through the intersection. The median opening west of the intersection will be closed and a WB left turn lane will be added at Solar Ave to accommodate U-turns. All curb ramps will be upgraded to meet current ADA standards. The existing pork chop islands will be removed and reconstructed. The existing traffic signals will be upgraded with a new controller, possible addition of EVP, removal of the video detection, and installation of base patched loops. Storm sewer will also be evaluated to determine repair or replacement needs.

Mequon Road (STH 167) East: Buntrock Avenue to Port Washington Road

The project scope includes milling off 4 inches of existing asphalt and overlay with 4 inches of new asphalt surface, including some base patching. Curb ramps will be updated to meet Americans with Disability Act (ADA) standards. Traffic signals and lighting will be replaced at Cedarburg Road, River Road, and Range Line Road. Deck patching, concrete surface repair, and concrete deck seal of bridge over Milwaukee River will also be completed. The railroad crossing near the Ozaukee Interurban Trail will be updated as well. Construction is anticipated to take place in 2028, but may happen as early as 2027 if

Pool Opens for the Season This Weekend

The Community Pool officially opens for the season tomorrow, Saturday, June 10 at noon. The pool will be open weekdays from 11:00 A.M. – 7:00 P.M. and on weekends from noon – 7:00 P.M. Season passes are available for purchase at the bathhouse during pool operating hours. Those interested in renting the pool for their next event can find more information [here](#).

Library Seeking Part-Time Access Services Associate

If you enjoy working with people, the Weyenberg Library has the perfect job for you! The library is seeking a motivated and courteous individual to join their Access Services team. As a member of this team, the successful candidate will be responsible for delivering exceptional customer service at the circulation desk, handling returned materials, checking out and renewing items, answering phones, and providing curbside services. The position requires flexibility, strong customer service and computer skills, and the ability to work collaboratively in a team-oriented environment. View the full job description [here](#). To apply for this position, submit a cover letter, resume, and three references via email to jobs@flwlib.org.

Mequon Nature Preserve Receives Invader Crusader Award

The Wisconsin Invasive Species Council has awarded Mequon Nature Preserve the 2023 Invader Crusader award! This is awarded to individuals or groups for outstanding voluntary or professional efforts in the battle against invasive species. The Invasive Species Council recognizes a small number of people every year based on their commitment to stopping the spread of invasive species through education, on-the-ground management and control, or research. Congratulations to Mequon Nature Preserve staff and volunteers for your hard work in removing invasive species!

Lionfest Taking Place This Weekend

The 58th Annual Lionfest will take place at Thiensville Village Park on June 9, 10, and 11. There will be music, food, bingo, carnival rides, softball, and Great Lakes Championship Wrestling. There will also be a free shuttle from MATC Mequon. More information regarding the event can be found [here](#). Don't miss out on this fun event!
