

Mequon Road & OIT Crossing Improvements Project

Weekly Update - August 21 to August 25

The project is currently on schedule and is anticipated to conclude in late October. Lane closures will continue throughout summer and will be opened when possible.

- Stage 3 work continues in the median of Mequon Road.
- Work on the new lighting and traffic signal bases continues along the corridor. This includes installing new wire duct lines in the median for median lights.
- Work will continue on the new lighting and traffic signal bases along the corridor. This includes installing new wire duct lines in the median for median lights.
- The contractor worked to install the new pavement for the OIT crossing in the median.

Work Forecast - August 28 to September 1

- Work will continue on the new lighting and traffic signal bases along the corridor. This includes installing new wire duct lines in the median for median lights.
- Work to install the new pavement for cross walks in the median.
- Asphalt paving will be finishing work on Mequon Rd.

Traffic tip:

Drivers on Mequon Road should merge near the lane closure. Take turns merging into one lane, like the teeth of a zipper coming together. This method can help reduce congestion and prevent traffic backups by utilizing all available lanes until the merge point.
