

Mequon Road & OIT Crossing Improvements Project

Weekly Update - June 19 to June 23

The project is currently on schedule and is anticipated to conclude in late October. Lane closures will continue throughout summer and will be opened when possible.

- Finished installing curb and gutter on both lanes of Mequon Road.
- Finished installing mainline lane pavement.
- Began pavement removals on both eastbound and westbound lanes at the RR crossing.
- Began install light pole bases behind the curb.
- Lane closures will remain in effect throughout the project.

Work Forecast - June 26 to June 30

- Buntrock Ave was closed to southbound traffic only and a detour was established to use Buntrock Ave to Industrial Drive to Weston Drive back to Mequon Road.
- With the Buntrock Ave. closure, the existing pavement was removed and the area formed for the new pavement.
- Local businesses will remain accessible throughout the project. At certain times during the project, an alternative entrance may need to be used.

Traffic tip:

Drivers on Mequon Road should merge near the lane closure. Take turns merging into one lane, like the teeth of a zipper coming together. This method can help reduce congestion and prevent traffic backups by utilizing all available lanes until the merge point.
