

Mequon Road & OIT Crossing Improvements Project

Weekly Update - September 11 - September 15

The project is currently on schedule and is anticipated to conclude in late October. Lane closures will continue throughout summer and will be opened when possible.

- No work on September 11 - Rain Day.
- Stage 3 work continues in the median of Mequon Road.
- Work on the new lighting and traffic signal bases continues along the corridor. This includes installing new wire duct lines in the median for median lights.
- Starting to install traffic signal bases at the Weston Dr. and directional boring of cable under Mequon Road.
- Installation of brick pavers in the median areas started.

Work Forecast - September 18 to September 22

- Work will continue on the new lighting and traffic signal bases at the Weston Drive intersection. This includes installing new wire duct lines in the median for median lights.
- Work to install the new brick pavers continues this week in the median areas.

Traffic tip:

Drivers on Mequon Road should merge near the lane closure. Take turns merging into one lane, like the teeth of a zipper coming together. This method can help reduce congestion and prevent traffic backups by utilizing all available lanes until the merge point.
