

Mequon Road & OIT Crossing Improvements Project

Weekly Update - September 4 to September 8

The project is currently on schedule and is anticipated to conclude in late October. Lane closures will continue throughout summer and will be opened when possible.

- No work on September 4-Labor Day Holiday
- Stage 3 work continues in the median of Mequon Road.
- Work on the new lighting and traffic signal bases continues along the corridor. This includes installing new wire duct lines in the median for median lights.
- Traffic Signal Bases at the Buntrock intersection are complete.
- Local businesses will remain accessible throughout the project.

Work Forecast - September 11 to September 15

- Work will continue on the new lighting and traffic signal bases along the corridor. This includes installing new wire duct lines in the median for median lights.
- Traffic Signal Bases at the Weston intersection are scheduled to be installed this week.
- Work to install topsoil, seed and the new brick pavers is scheduled for this week in the median areas.

Traffic tip:

Drivers on Mequon Road should merge near the lane closure. Take turns merging into one lane, like the teeth of a zipper coming together. This method can help reduce congestion and prevent traffic backups by utilizing all available lanes until the merge point.
