

Welcome to the Mequon Water Utility

The Mequon Water Utility has been hard at work for our customers since taking over operations in May of 2009. To list a few of the major accomplishments:

- The utility established new “Customer Connection Rules” that guide new customers through the process of connecting to the Mequon Water Utility. These rules are unique in Wisconsin in that we are the only voluntary connection water utility.
- Significant customer growth – Over the last two years we have added over 550 customers to our Water Utility. That is a significant increase in customers over a 2-year period. This customer growth helps the utility spread fixed costs of the system over a larger group of customers, ultimately reducing the impact per customer for these fixed costs.
- We continue to offer our customers a great value for the high-quality Treated Lake Michigan water that

we serve.

The Utility strives to ensure that our customers receive the highest quality water available, with professional and courteous service, at the

most reasonable price possible.

Reaching us is easy—we're just a call or click away.

Certain properties, such as those with fire sprinkler systems, also are billed a Private Fire Protection Charge.
