PUBLIC WORKS/ENGINEERING

November 30, 2018

Subject: Public Information Meeting for Sanitary Sewer Service Area Amendment

A public information meeting for the proposed Sanitary Sewer Service Area Amendment is scheduled for January 9th at 6-7:30pm in Nuernberg Hall at City Hall. A number of parcels were exempted from City Sewer Tax District charges in 2018, and are eligible to become exempt from any future sewer charges via removal from the Sanitary Sewer Service Area, based on a recently approved resolution. The next step is outreach with property owners to confirm preferences to continue the exemption from charges by removal of parcels out from the City's Sewer Tax District and Sanitary Sewer Service Area, or to determine if preferences are to remain in the utility service area and incur future charges.

At the meeting, the implications of requesting to remain in the City Sewer Tax District will be discussed and that includes incurring future sewer charges. The outcome of parcels being removed out from the City of Mequon Sewer Tax District and Sanitary Sewer Service Area is also planned for discussion to explain that removal from the SSA results in not being allowed to connect to the public system.

For more information on the Sewer Utility Tax Exemption and the proposed Sanitary Sewer Service Area Amendment please visit the City's Utilities web page at <https://www.ci.mequon.wi.us/utilities>
